Web Design Packages

Starter Package

\$1995.00 (excl GST)

Our Starter Package is ideal for any small business that is wishing to establish an online presence. If you have an idea to create a fully featured site with complete information about your business - order the Starter Package now!

The package includes consultation and planning, stunning professional web design with custom graphics such as icons, backgrounds, logo and layout design. The starter package also includes 5 categories with 7 pages, contact form and privacy policy and full testing of your website on various browsers, screen resolutions and operating systems for compatibility.

Features

- Consultation & planning
- 5 categories / 7 pages
- Includes professional design services
- Privacy policy included
- Contact form included
- Updatable content (1 user)
- 2 week turnaround

Benefits

- Affordable
- Professional and personal service
- Updatable content means that significant cost savings can be made by enabling you to easily maintain and modify your site when required
- Quality at an affordable price

Terms & Price

The terms of development - 10 working days (after the customer provides all the materials). We require a 50% deposit before work can begin with the remainder paid upon completion and sign-off of the project. This ensures that we have full commitment from both parties.

Business Package

\$3495.00 (excl GST)

Our Business Package is suitable for any small to medium sized business that needs a scalable platform to grow on. Built upon the proven Evolo v4.0 Content Management System, using the latest technology and industry standards, you can be assured of obtaining a maximum return on investment. If you need a fully featured web site with complete information about your business, and the ability to expand your website, then this package is ideal for your business.

The package includes consultation and planning, stunning professional web design with custom graphics such as icons, backgrounds, logo and layout design. Includes 10 categories with 10 base pages (unlimited additional pages can be added through the CMS), contact form and privacy policy. The business package also includes development of an intuitive navigation scheme and interface and full testing of your website on various browsers, screen resolutions and operating systems for compatibility.

The website is incorporated into a Content Management System, allowing for easy creation of additional pages as well as the ability to update all content throughout the website with minimal training. For ongoing support, we include website monitoring and unlimited e-mail and/or telephone consultation.

Features

- Consultation & planning
- 10 categories/subcategories
- 10 base pages (unlimited additional pages)
- Professional design services
- Multiple templates
- Privacy policy included
- Contact form(s) included
- Updatable pages (1 user)
- Ability to add extra pages
- Optional modules available
- Level 1 Search Engine Optimisation
- 3 week turnaround

Benefits

- Scalable - website and functionality can be easily expanded as your web presence grows
- Professional image & branding portrayed throughout website
- Full maintenance of website allows ultimate control and scalability
- Additional modules such as News, Articles, Secure Order Form, Newsletter Manager, Shopping Cart, etc can be added at a later date if required

Terms & Price

The terms of development - 15 working days (after the customer provides all the materials). We require a 50% deposit before work can begin with the remainder paid upon completion and sign-off of the project. This ensures that we have full commitment from both parties.

E-business Package

\$4995.00 + (excl GST)

Our E-business Package is suited to most businesses wanting to sell products or services directly to the consumer and/or requiring a scalable e-business solution to grow on. If you need a fully featured web site with complete information about your company, the ability to expand your website, and the ability to conduct business online, then this package is ideal for your business.

The package includes consultation and planning with a detailed technical specification. Website includes stunning professional web design with custom graphics such as icons, backgrounds, logo and layout design. Includes 20 categories/subcategories with 25 base pages (unlimited additional pages can be added through the CMS), contact form and privacy policy. The E-business package also includes development of an intuitive navigation scheme and interface and full testing of your website on various browsers, screen resolutions and operating systems for compatibility.

The website is incorporated into a Content Management System, allowing for easy creation of additional pages and ad-on modules as well as the ability to update all content throughout the website with minimal training. For ongoing support, we include website monitoring and unlimited e-mail and/or telephone consultation, as well as 1 year subscription to updates.

Features

- Includes consultation & detailed technical specification
- 25 base pages (unlimited additional pages)
- 20 base categories / subcategories
- Unlimited additional categories
- Privacy policy included
- Contact form(s) included
- Ability to add extra pages
- Optional modules available
- Multi-level user management (5 users)
- Articles, News Articles, Product Catalogues
- Custom programming for secure login areas, integration with database etc
- Level 2 Search Engine Optimisation
- 3-5 week turnaround

Benefits

- Scalable - website and functionality can be easily expanded
- Professional image & branding portrayed throughout website
- Full maintenance of website allows ultimate control and scalability
- Additional modules such as News, Articles, Secure Order Form, Newsletter Manager, Shopping Cart, etc can be incorporated into the initial design
- Full multi-level user management allows parts of the website to be maintained by their appropriate departments and/or employees. User, Author, Editor, Webmaster and Administrator access levels ensures tight security control.
- Full Search Engine Optimisation (Level 2) means that your website will gain high search engine rankings, right from the word go.

Terms & Price

The terms of development - 15 to 20 working days (after the customer provides all the materials). We require a 50% deposit before work can begin with the remainder to be paid upon completion and sign-off of the project. This ensures that we have full commitment from both parties. If the project cost is greater than \$4995.00 (excl GST) then we can negotiate a lower down payment, which may be agreed upon during the initial consultation(s). In this case we split the project into several milestones, and charge you an agreed amount upon completion of each milestone.
